SUMMARY

Front-end developer focused on creating interactive, responsive web experiences with HTML, CSS, JavaScript, React.js, TypeScript, Next.js, and Tailwind CSS. Strong in translating UI/UX designs into responsive layouts, implementing animations, and ensuring cross-browser compatibility. Passionate about clean architecture and enhancing user experience. And now I am in the learning phase of Node.js, Express.js, and MongoDB. And I am currently working on my E-commerce Website with React.js, TypeScript, and Next.js.
